Bugs (BUGS project)
BUGS-1

There is no way to log out of the pizza hut site once the user has entered correct credentials.
Steps to Reproduce
1. Navigate to http://intent-pizza.internal.intentmedia.net:8080/ in your web browser.
2. Log into site using credentials (Username: omar@jabri.com Password: 12345)
Expected Results
User should be able to log out of the site to protect their identity or to log into another account
that they may have.
Actual Results
User is unable to log out of account. If saved passwords are enabled on the user's web browser
then even when reloading the page or closing the window entirely they log right back in
Frequency
Issue occurs at every log in

BUGS-2

A user has no way to remove an order from the "Listing Pizza" page if that order is in progress.
Steps to Reproduce
1. Navigate to http://intent-pizza.internal.intentmedia.net:8080/ in your web browser.
2. Log into site using credentials (Username: omar@jabri.com Password: 12345)
3. Click on "Order a pizza"
4. In the name field type "Cheese"
5. In the size field type "Medium"
6. Click the "Create" button
7. Click the "All orders" button appearing on the next page
8. Click "remove" next to the newley created pizza order
Expected Results
The pizza will be removed from the list and the user will be able to start again at the pizza
creation screen
Actual Results
The user is directed back to the "Add Toppings" screen, creating an infinite loop where they can
not remove the pizza from their list.
Frequency
Always

Listing pizzas

Link does not remove pizza

Name	Size	Number of toppings	Order placed?			
Cheese Pizza	Medium	0	true	Show		
Cheese	Medium	0	false	Show	Edit	Remove
Cheese	medium	0	false	Show	Edit	Remove

Place another order

BUGS-3

A user can not remove a topping from a pizza order once that topping has been added

Steps to Reproduce

1. Navigate to http://intent-pizza.internal.intentmedia.net:8080/ in your web browser.
2. Log into site using credentials (Username: omar@jabri.com Password: 12345)
3. Click on "Order a pizza"
4. In the name field type "Cheese"
5. In the size field type "Medium"
6. Click the "Create" button
7. Click the "Add toppings button"
8. Type "Garlic" into the Topping name field
9. Click create
10. Click "remove" next to the Garlic topping

Expected Results

The topping will be removed from the list

Actual Results

The user is redirected to a page which shows the text "Were sorry but something went wrong"

Frequency

Always

Name: Cheese

Size: Medium

Toppings:

Name	Double order	
Peperoni	false	Remove
Garlic	false	Remove

Add toppings || Order this pizza

All orders

We're sorry, but something went wrong.

BUGS-4

A user can not create a new account once one has been already created, their old account automatically logs in bypassing authentication (**SECURITY FLAW**)

Steps to Reproduce

1. Navigate to http://intent-pizza.internal.intentmedia.net:8080/ in your web browser.
2. Log into site using credentials (Username: omar@jabri.com Password: 12345)
3. Close window.
4. Navigate to http://intent-pizza.internal.intentmedia.net:8080/ in your web browser.
5. Click "Create account"

Expected Results

The user will be directed to the account creation page

Actual Results

The user is directed to their "My Profile" page

Frequency
Always
